

Worry-Free Driving

Vehicle Service Agreement Summary of Coverages

Vehicle Service Agreements are an effective, affordable way to protect your new investment against expensive break-downs or unforeseen repairs. In sum, added coverage for your vehicle equals worry-free driving.

POWERTRAIN ENGINE

Internally lubricated parts (requiring lubrication for operation) contained within the Engine, including Pistons, Piston Rings and Pins, Connecting Rods, Connecting Rod Bearings; Crankshaft, Crankshaft Main Bearings, Camshaft, Camshaft Bearings, Cam Followers, Timing Chain, Timing Gears, Rocker Arms, Rocker Shafts, Rocker Bushings, Valves, Valve Guides, Valve Lifters, Valve Springs, Valve Seals, Valve Retainers, Push Rods, Water Pump, Oil Pump, Fuel Pump, Dipstick and Tube, Harmonic Balancer, Oil Pan, Timing Chain Cover, Intake and Exhaust Manifolds, Valve Covers, Engine Mounts, Cylinder Block and Cylinder Head(s) are covered if damaged as the result of the failure of a covered internal part of the engine. Head Gaskets; Intake Gaskets and Exhaust Manifold Gaskets.

TURBO CHARGER/SUPER CHARGER

(factory installed only): Internally lubricated Parts contained within Housing, plus: Housing if damaged as the result of the failure of an internal part.

TRANSMISSION

(Automatic or Standard): Internally lubricated Parts (requiring lubrication for operation) contained within the Transmission Case (With the exclusion of the following: Manual Clutch, Clutch, Pressure Plate & Throwout Bearing, Linkage, Cables, Shifter, Clutch Slave Cylinders; Electronic Switches & Solenoids), plus: Torque Converter, Vacuum Modulator, and Transmission Mounts. (Oil Pan and Transmission Case, if damaged as the result or the failure of a covered Internal Part of the Transmission)

TRANSFER CASE 4X4/AWD

Internally lubricated parts (requiring lubrication for operation) contained within the Transfer Case. including carrier case, gear sets, chain and sprockets, bearings, and bushings, axle shafts, front hub bearings, rear hub bearings The Transfer Case is also covered if damage is the result of the failure of an Internal Part of the Transfer Case. Locking hub assemblies (4X4) drive shaft support, drive shaft and fasteners for these components.

DRIVE AXLE

(Front and Rear): All Internally lubricated Parts contained within the Drive Axle, plus; Locking Hubs, Drive Shafts, Universal Joints, Constant Velocity Joints (unless failure was caused by torn/contaminated C.V. Boot) and Axle Bearings. (Oil Pan and Drive Axle Case if damaged as the result of the failure of a covered internal Part of the Drive Axle)

STEERING

Steering gearbox or rack and all internal lubricated parts, (examples include rack and pinion equipped valve assembly, sector shaft, rack mounts and cushions, inner rod ends and bellows boots, speed sensor or steering gear equipped pitman shaft and valve assembly, and bearings), bushings, pitman arm, center link, idler arm, power steering pump/electric steering motor, power steering pump pulley, fluid reservoir, coupling, and fasteners for the components listed above.

BRAKES

Wheel cylinders, master cylinder, combination valve, assist booster, disc brake calipers, hard lines and fittings, backing plates, springs, clips and retainers, self-adjusters, parking brake linkage and cables, and fasteners for these components.

ELECTRICAL

Alternator, voltage regulator, starter motor and starter solenoid, front and rear Windshield wiper motors and fan, ignition coils, electronic ignition module, body control module, engine control module, and engine management control unit.

COOLING

Water pump, engine fan motor, radiator fan clutch, thermostat and thermostat housing. Air Conditioning: Condenser, compressor, clutch and pulley, orifice tube, accumulator, HVAC control module, high/low pressure cutoff switches, high pressure hoses, pressure cycling switch, thermostat, drier, temperature control head, and Freon-refrigerant if necessary for a repair.

FUEL SYSTEM

Fuel injection delivery pump, and fuel injectors (electrical failure only).

SUSPENSION

Bump stop cushions, torsion bar mounts and bushings, upper and lower ball joints including dust boots, steering knuckle (spindle), spindle support, stabilizer shaft, stabilizer linkage including mounts, and bushings, kingpins, and fasteners for the components listed above.

SEALS and GASKETS

Should seals and gaskets be required in conjunction with the repair of a covered component, coverage will be extended to include seals and gaskets on said components up to 100,000 odometer miles. The cylinder head gasket(s), exhaust manifold gasket(s), and intake manifold gasket are the only gaskets covered as a gasket failure alone up to 100,000 odometer miles. The cylinder head gasket(s), exhaust manifold gasket(s), and intake manifold gasket up to 150,000 miles.
